## MIDDLE JAVA DEVELOPER

---

Porto, Portugal

phone: **913-602-401** /email: [contact@singledev.eu](mailto:contact@singledev.eu) / github: **vopros21** / page: [singledev.eu](http://singledev.eu)

### PROFILE

With **seven years of experience** in IT and a total of twenty years in the field, I am a seasoned **engineer** seeking a Middle **Java Developer** position. Currently, I hold a Java Developer role at a prominent fintech company, where I have honed my skills over the past few years. I am eager to transition to a new technology stack and contribute to a diverse and innovative team.

### EXPERIENCE

JAVA DEVELOPER, DEVEXPERTS, PORTO – JAN,2022-PRESENT

- Develop and analyse technical requirements for modules and tasks within the scope of development and testing. Prioritise backlog tasks based on business objectives. Estimate task durations based on size and time considerations.;
- Implement code logic for specified tasks from the backlog. Provide the QA team with user and/or functional perspective understanding of the code changes.;
- Review team's pull requests and assist in enhancing code quality, performance, and maintainability.;
- Provide deployment support to ensure the highest product quality for our customers..

QA ENGINEER, DEVEXPERTS, PORTO – AUG,2018-DEC,2021

- Analyse and develop documentation: business/technical requirements, test cases/scenarios;
- Collaborate with the QA auto team to adapt test cases to their requirements, validate auto tests and results, and execute and interpret results in accordance with functional QA requirements.;
- Functional testing for new features and regression testing scope;
- Develop scripts (Bash, Python) to automate routine QA tasks..

### EDUCATION

ROSTOV STATE TRANSPORT UNIVERSITY, ROSTOV-ON-DON – MASTER'S DEGREE
